"EAT MORE POTATOES" URGES MR. PRESCOTT

FOOD ADMINISTRATOR APPEALS TO MICHIGAN PEOPLE TO HELP USE UP SURPLUS TUBERS.

plumbing and heating work, with BE LOYAL TO OUR FARMERS

Your Patriotism at This Time," Prescott Tells Us.

Lansing-"Eat more potatoes and be sure they're Michigan grown." With that slogan, the United States Food Administration for Michigan has inaugurated a campaign to encourage the free marketing and consumption of the surplus potato stocks in the State. Food Administrator Prescott has enlisted the co-operation of all agen cies of the potato trade, state and lo cal authorities, various organizations and the press. Similar campaigns are being held in every other section of this country and during the next few weeks the great potato crop of Mich igan and America will be moved from producing centers to points of con sumption as rapidly as the public will consume the delectable "spuds."

"To eat potatoes is the best kind of local, home grown patriotism," says Mr. Prescott. "The reason for a po tato campaign in Michigan is that the food bins are heaped with potatoes as the answer of the farmer to last year's appeal for the bumper war crops. The potato, grown through patriotism should be eaten through patriotism With so many other things scarce, po tatoes, which are plentiful, should not if they are not eaten in the next few weeks. weeks.

"Potatoes are a strictly made in CITCUS America product. They grow on this continent when the Mohawks and the Cherokees ruled it with a tomahawk They are the gift of America to Europe and Europe has gone us one better England, France, Germany, Belgium have made the potato a naturalized citizen, while Ireland, God bless her has almost made it a Patron Saint along with St. Patrick himself.

"In spite of its adoption in other countries, however, the potato proved it was a true American last year when the crops were called to the front for war service. It enlisted in the front ranks of the food forces, with the re sult that we have such a potato cros as was never known in this country Europe does not need to share our potatoes. They are too bulky to ship at this time when ships must be saved for troops and for the more essential and concentrated foods. Therefore the best form of patriotism is to eat our bumper crop and make it help

"The situation, in brief, is this, continued Mr. Prescott. "We have not enough wheat for the Ailies and our selves. We have an abundance of potatoes and excess of 90,000,000 bushels over normal times. If we are to win this war the Allies must have wheat. The potato cannot quite come up to wheat in food value but it does come about as close to taking the place fore by eating potatoes we can save at grounds.

"Michigan people should rally

the support of the potato, for it is a native of our State. When it is realised that the potato is one of the chief foods now sustaining Germany and that the other European coun tries are largely dependent upon it, its importance in the war may readily

portant a part in their daily food the potato played when last year a scarcity of this vegetable drove its prices to prohibitive heights. The result of those sky high prices still has its effect this season. When the Spring came, everyone planted potatoes. The farmer was particularly urged to lay out his land in potatoes as a patriotic duty. Accordingly although the aver age yield per acre was not large, there was an abundance of potatoes produc-

ed which bave not been sold. "The farmer had to pay high prices for his seed. It was difficult to ob FOR SALE-Tent, 12x16, used less tain labor for tending and digging the crop and what labor he did procure cost him two or three times as much as ordinarily. A large item of expense was the fertilizer which has advanced in price because the acids it contains are being used for munition making.

"As a result, many a potato farmer is not making as much as he did several years ago when potatoes retailed at 50c per bushel and less. They should certainly be encouraged to plant potatoes this year by consump tion of the crop they have produced instead of having them rot in their

barns, or left to be fed to the hogs. "Although the potato is a native egetable, the American per capita consumption is very low, averaging only about one-half that of Europe. This is probably largely due to the fact that bread has always been high priced abroad and low here. The present price of bread in this country will probably make the people turn more

"At a time when the world is so in need of food it would be criminal to waste anything so important as the potato. It becomes the plain duty of the people of Michigan and every other State to eat up their potatoes grows in response to a military necessity, concluded the Michigan food chief.

COLORADO WOMAN WRITES HERBERT HOOVER. ON FOOD REGULATIONS

"I am situated about thirty miles from a railroad. Keep a sort of family hotel, often for days there is none but the family here. Then again we have ranchmen, cattlebuyers, campers, poli ticians and such people as patronize a country place. We have a good sized place, keep our own cows and pigs, chickens and a flock of turkeys; a good garden, raise potatoes, corn.

beans, squash, etc., as field crops. "Our meatless days are filled with chicken, fish, both fresh and canned cheese, butter, dried, fresh and canned fruit, "our own products", a mess of rabbits fried at breakfast, stewed and baked for dinner, with all kinds of home grown vegetables and fruits. We have lots of honey from our own bees, corn bread every day, corn cakes at breakfast. Rye flour is hard to ge and costs as much as wheat.

"It only requires a little tact and consideration in managing without wheat and meat. Cheese in small quantities This is the Best Way You Can Show helps. Assorted dried fruit and fruit sauce helps. Honey to sweeten fruits goes a long way instead of sugar.

"I have lived here in this place since I was three years old, or since 1872, and have grown up over a cook stove; cooking, baking, boiling, frying etc., besides milking cows, making butter, preserving, drying fruits, and at the same time I am the oldest girl in a family of eleven children, eight of them born on this creek. I can make a few things go a long way, clothing. shoes and in other respects.

"We are all true Americans. I am eligible to the Daughters of the American Revolution. My father went through the confederacy under Jos Wheeler

and saving that I have had all my life. less days would not worry them so 119 SUPERIOR ST. ALMA, MICH much to win the war."
